TOTAL ARMY GOALS

The mission of the Total Army is to deter any attack upon U.S. national interests and, if deterrence fails, to engage and defeat any enemy in any environment.

- **READINESS**

A Total Army prepared for the "three days of war": to deter the day before war; to fight and win on the day of war; and to terminate conflict in such a manner that on the day after war, the United States and its allies have an acceptable level of security.

- **HUMAN**

A Total Army composed of military and civilian professionals who loyally serve their nation in rewarding careers.

- **LEADERSHIP**

A Total Army whose leaders at all levels possess the highest ethical and professional standards committed to mission accomplishment and the well-being of subordinates.

- **MATERIEL**

A Total Army equipped and sustained to win any land battle.

- **FUTURE DEVELOPMENT**

A Total Army sensitive to innovative approaches to accomplish its mission.

- **STRATEGIC DEPLOYMENT**

A Total Army organized, manned, and equipped so as to be capable of deploying, with transportation assistance, to any part of the globe to counter a wide spectrum of threats.

- **MANAGEMENT**

A Total Army which efficiently and effectively uses the resources made available.

E. C. MEYER
General, United States Army
Chief of Staff

John O. Marsh, Jr.
Secretary of the Army

FOREWORD

This document, which consists of two volumes, contains the Management Support Services (MSS) Program for Fiscal Year 84. The purpose of the document is to describe the relationship of the Management Support Services Program to the goals of the United States Army and the subcategories of service, as defined in Appendix B, AR 5-14. The results of this assessment may be utilized to assist Army leaders and decision makers in long-range planning and managing their programs more effectively.

Data, reported in the document, were collected from major Army agencies and commands. A summary of the data and a description of the MSS Program as it pertains to the Total Army Goals and subcategories are presented in Volume I. This macro-approach is used to assess the direction taken by the Army community in responding to HQDA policy on Performance Management Army (PMA). Basic data for individual contracted services are contained in Volume II. This provides a source of reference for readers who seek detailed information.

Volume I consists of four sections, beginning with an introduction to the document. The second section contains an overall description of the FY 84 MSS Program. Data are presented and interpreted under nine discrete headings: Total Army Goals, subcategories, status, sponsors, use, resource levels for FY 84 program, appropriations, payback, and combat applications. Frequency tables and corresponding graphs are used to present the data. Data for total resources are also provided in the tables and compared with the summary statistics.

An analysis of the FY 84 MSS Program as it pertains to the Army goals is presented in Section three, followed by an analysis of the subcategories in Section four. Cross-tabulation tables are used to present the data. A glossary and a listing of all FY 84 Management Support Services by title are contained in appendices.

Volume II is divided in seven sections. A listing of contracted services is presented in each section under the heading of title, descriptions, sponsor, status, goal, subcategory, or project identification number. Data pertaining to each contract are included in the listings. A glossary and a list of oversight managers and distribution are provided in appendices. A list of symbols is located in the inside of the back cover of both volumes.

APPENDIX A

GLOSSARY

Combat Application: The combat application of the intended results of the service. (For further explanation, see list of symbols in inside of back cover.)

Contracted Service: A contract for management support services, as defined in Appendix B, AR 5-14.

Description: A brief narrative description of the management support service.

End Date: The anticipated month and year the service will be completed.

FPDS Code: A four position entry of the Federal Supply Class Code related to the category of Schedule 10 in which the contracted service is reported.

Identification code: A nine position code which serves to track management support services throughout their life-cycles.

Payback: The general time frame in which the outcomes of the service may reasonably be expected to provide benefit to the army. (For further explanation, see list of symbols in inside of back cover.)

Performer: The organization performing the service.

Resource Level: The range, i.e., high, medium, or low, of FY 83 and FY 84 dollar resources to be obligated to management support services.

Sponsor: The MACOM, Command or HQDA staff agency sponsoring the service.

Start Date: The anticipated or actual month and year the service will begin or has begun.

Status: A code indicating the status of a contracted service as of the date of submission.

Subcategory of Service: A contracted service, as defined in Appendix B, AR 5-14. (For further explanation, see list of symbols in inside of back cover.)

Title: A brief descriptive title of the project.

[REDACTED]

Total Army Goals: Goals of the Total Army. (For further explanation, see inside of front cover.)

Use: The anticipated end use of a planned or on-going management support service. (For further explanation, see list of symbols, in inside of back cover.)

APPENDIX B

OVERSIGHT MANAGERS FOR MANAGEMENT SUPPORT SERVICES

Each Army Staff agency and major command has designated an Oversight Manager whose duties are to:

- a. Ensure that the management and control provisions of AR 5-14 are institutionalized and being carried out in the command or agency.
- b. Oversee the preparation of the annual program and budget for management support services contracts.
- c. Track project status and funds obligations for each individual contract.
- d. Ensure that completed reports are forwarded to the Defense Technical Information Center (DTIC).
- e. Evaluate results and uses of individual projects and results of total annual program of contracts.

A current listing of Oversight Managers is provided on the following page. Any changes in the list should be reported to either Ms. Pamela Bockman or Dr. Paul Dunn, Army Study Program Management Office (DACS-DMO), Washington, D.C. 20310, (202) 697-0026 or Autovon 227-0026.
